

1-meter lc single-mode fiber optic pigtail

Check out our industry-leading cable assembly configurator to create part numbers while visually verifying different product attributes.

LC OS2 pigtail is a fiber product to connect a fiber cable to a fiber coupler, it consists of a connector and a fiber optic cable. The pigtail is thin, the tail fiber cross-section is 8° inclined surface, and does ...

Our line of stock jacketed fiber optic pigtail kit assemblies are a great value, high quality, and typically ship same day. These fiber optic pigtail kits feature LC connectors and are constructed of 12 strands ...

The OS2 bend insensitive fiber optic pigtails have less attenuation when bent or twisted compared with traditional fiber optic pigtails and this will make the installation and maintenance more efficient.

Ultra Spec's 12 Strand Singlemode Pigtails are ideal for use in Optical Distribution Frames, enclosures or cable management boxes. They can be terminated by mechanical or fusion splicing.

Techlogiks Single Mode fiber pigtails are available in a variety of colours to complement any network, custom configurations and performances. Full choice of available connector types like ...

Featuring LC UPC connectors and OS2 single-mode fiber, this pigtail is ideal for long-distance data transmission with minimal signal attenuation. The color-coded fibers simplify identification and ...

CommScope engineers and manufactures a complete line of high quality fiber pigtails

Ultra Spec's 12 Strand Singlemode Pigtails are ideal for use in Optical Distribution ...

The Low Insertion loss, low backreflection color-coded 900um tight buffer pigtails is designed for high fiber count splicing applications. Color coded to industry standards makes enclosure layout as simple ...

Fiber Optic Patch Cord, Length: 1 m, Fiber Category: 9/125 µm Singlemode, Adapter Type: LC Pigtail, Connector Type: LC Pigtail
