

MokerLink Gigabit SFP to RJ45 Converter, A Pair 2 Pack Single-Mode Fiber to Ethernet Media Converter, 10/100/1000Mbps RJ45 Port, 1000Base-LX SFP Module 1310nm up to 20KM

The 10/100/1000BASE-T SFP Copper RJ-45 Module provides a flexible and cost-effective solution for connecting Gigabit Ethernet equipment ...

The Gigabit stand-alone Ethernet Media Converter that provides cost effective, entry-level media conversion between 1x10/100/1000Base-TX ports and 100/1000Base-FX ports. With its fixed ...

Our 1000BASE-T Copper SFP module delivers dedicated Gigabit Ethernet connectivity over existing copper cabling. Supporting 1000 Mbps data rates over distances up to 100m using Cat5e or better ...

The 10/100/1000BASE-T SFP Copper RJ-45 Module provides a flexible and cost-effective solution for connecting Gigabit Ethernet equipment using standard copper cabling.

In summary, 100BASE FX SFP modules are most commonly deployed in industrial, surveillance, campus, and infrastructure networks where 100Mbps bandwidth is sufficient but fiber reliability, ...

The Gigabit stand-alone Ethernet Media Converter that provides cost effective, entry-level media conversion between 1x10/100/1000Base-TX ports and 100/1000Base ...

The CNGE22MC is a two (2) CHANNEL Ethernet converter in a single package. These devices accept a 10/100 or 1000 Mbps (Megabits Per Second) electrical input and converts this to a 1000 Mbps (1Gbs) ...

Managed Optical Demarcation module with free software support iMcV form factor, installs into iMediaChassis or MediaChassis series One 10/100/1000Mbps copper port and one fiber port, SFP ...

This data sheet describes the benefits, specifications, and ordering information for the Cisco SFP Modules for Gigabit Ethernet Applications.

This converter will give your Copper Gigabit connection the ability to interface with fiber connection over a distance up to 80 km! 10/100/1000 means, that media converter that converts the electrical signal ...

For IP phones specifically, you can use our 10/100/1000 Ethernet over fiber transceivers, which will allow you to connect and use them with your phone. It would basically work just like a copper RJ45 cable, ...
