

This is used to prevent dust or other deposits on the lenses of photoelectric switches ø18mm*, thus ensuring constant detection is maintained. It consists of a threaded body with a side air inlet pipe.

?E18-D80NK is a set of transmitter and receiver in one of the photoelectric sensor. ?Detection distance can be adjusted according to requirements. ?Long distance detection, low ...

How to Connect the M18 Photoelectric Switch Sensor Correctly? In this video, we give you a detailed introduction on how to correctly wire the M18 through beam photoelectric sensor to ensure its normal ...

?E18-D80NK is a set of transmitter and receiver in one of the ...

The Lumentum next-generation miniature opto-mechanical (MOMEX) switch is a GR-1221-qualified single component that provides high reliability under demanding central office and uncontrolled ...

The JDS Uniphase SB series of fiberoptic switches are programmable benchtop/rack-mount switches that can be controlled using the front panel keys and a numeric pad or via GPIB or serial RS232 ...

18 mm Optical Switches are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for 18 mm Optical Switches.

With just a light touch, these switches turn circuits on and off in sanitary areas--even when you're wearing gloves. They're ideal for environments that require frequent cleaning, such as food and ...

Dimensions for all drawings are in inches (millimeters). Tolerance of ± .010 (.25) on all non-nominal dimensions unless otherwise specified. Wire gauge: 24 AWG, 7 strand, pre-tinned copper. NOTES ...

The main production: Precision optical positioning products, precision optical measurement products, security protection, smart home and other electronic and electrical products.

1x4 Fiber Optical Switch - Compact Package This is a compact 1x4 optical switch. Its dimensions are as small as 38x27x8.5mm. It is designed and...
