

Future-proof industrial switches are designed to meet the stringent requirements of reliable high-performance in harsh environments.

Refers to the style or operation method used by a switch to control lighting or other electrical devices. Describes the method used to connect wires to the device, such as screw terminals, push-in ...

YH648GS-M-SFP an hardened 12-port Industrial PoE Switch, provides non-blocking wire-speed performance in harsh industrial environment. It also provides 8-port 10/100BASE-TX RJ45 PoE +4G ...

These industrial switches are built to handle high-capacity operations and frequent use, making them ideal for factories, warehouses, and other heavy-duty applications.

The switches are available in 24- and 48-port 10/100 Mbps or 10/100/1000 Mbps models, with or without IEEE 802.3af Power over Ethernet (PoE), for enterprise edge networking, security, and Unified ...

Commercial grade switches feature a galvanized steel strap, are available in Decora style, and go up to 20 Amp. The ideal solution for demanding applications requiring robust construction and exceptional ...

The switches are available in 24- and 48-port 10/100 Mbps or 10/100/1000 Mbps ...

Eaton's Arrow Hart heavy-duty industrial grade switches are designed to provide dependable and long-lasting performance in a wide range of applications.

Extreme Industrial Switches are a family of ruggedized Layer 2 switches designed to operate under harsh environments and extended temperature conditions. They provide continuous uptime, ...

Rugged Industrial Ethernet Switches with PoE, 5-10 ports, 10/100/1000Base-T and fiber support. Built to withstand -40°C to 75°C, shocks and vibration.

Digisol industrial switches consist of Unmanaged Din-Rail Industrial PoE Gigabit Switch, Unmanaged Industrial Switch, L2 Managed Din-Rail Industrial Gigabit PoE Switch & L2 Managed Din-Rail ...
