

Active products for optical communication

With over 21 years of expertise, we offer advanced optoelectronic products, RF and optical packaging, and optical engine integration designed for demanding applications in harsh environments.

On-board optical transceiver solutions designed and manufactured by Amphenol AOP in Berlin, Germany.

Designed to support data rates from 12G to 400G, AOCs integrate fiber-optic transceivers directly into the cable to provide faster transmission, longer reach, and improved signal ...

Active optical cables from Corning are designed for professional or industrial applications that require link lengths of up to sixty meters. Also, the cables are designed with either a USB or Thunderbolt ...

Optical active products are devices and equipment that actively manipulate, process, or generate optical signals for various applications in telecommunications, data communications, and other fields where ...

As a leading supplier of advanced fiber optic components, Molex has an extensive product offering that includes a full range of fiber optic connectors and adapters.

Browse our optical communication connectivity products designed to help you enable your communication networks. Easily create a bill of materials list.

What are Active Optical Cables (AOCs)? Active Optical Cable is the type of optical cable or technology which uses the electrical inputs similar to the traditional copper lines. However, Active Optical Cable ...

Wavelength Management modules, optical monitoring modules, and passive optics. These modules benefit from Coherent's deep technology vertical stack, and are integrated with electronics and software

Shop active optical cables from Pivotal Optics for data center & enterprise networks. AOC solutions from 10G to 400G SFP & QSFP. Lightweight, flexible cables!
