

For over 28 years, smartmicro has been developing high-performance radar sensors for traffic, automotive, and airborne applications. What started as a one-engineer company has grown into a ...

Our cutting-edge micro-inverter technology optimizes every single panel, ensuring maximum yield even in the diverse climatic conditions of the Argentine provinces.

Buenos Aires, September 2025 - CONUAR, Argentina's leading manufacturer of nuclear fuel elements and high-precision components, has signed a strategic industrial cooperation agreement with Terra ...

The Semiconductor Manufacturing industry in Argentina presents a mix of opportunities and challenges for those interested in exploring this sector. One key consideration is the regulatory landscape, as ...

At smartmicro, we design and manufacture high-performance radar sensors that set new standards in automotive and traffic management applications. Our production combines decades of radar ...

Today, MICRO is the leading manufacturer in Latin America, and competes in the region with other world leaders, through products 100% compatible. Production plants: Argentina, Brazil, Chile, ...

Buscamos promover y consolidar en el pa&#237;s el ecosistema industrial de las Micro y Nanotecnolog&#237;as. En este sentido, trabajamos en el desarrollo de soluciones para productos adaptados a las necesidades ...

Desarrollamos e implementamos tecnolog&#237;as y procesos de micro y nanofabricaci&#243;n, con el objetivo de innovar en el &#225;rea de sensores, biosensores, componentes electr&#243;nicos, microsistemas, Lab on a ...

Excelitas presents new high-bandwidth chips and camera modules for high-precision optical distance measurement and object detection using the Time-of-Flight (ToF) method.

Leverage our strategic filters to discover the ideal matches - Suppliers who are most likely to collaborate with you. Our database boasts a total of 26 Suppliers, complete with direct ...
