Sellers declare the item's customs value and must comply with customs declaration laws. Your country's customs office can offer more details, or visit eBay's page on international trade.

The Hyundai Gamma engine was introduced in 2006 to replace the existing Hyundai Alpha engine. There are 1.4 L and 1.6 L versions of this engine. Being a development from the Alpha II engine, significant changes include the aluminum construction of the block and cylinder head, resulting in a 15 kg weight reduction to just under 100 kg, and the use of a timing chain instead of belt. It is also ...
