

# Compatible 1 6T air-cooled switch Mexican supplier

1.6T direct-attached copper cables provide up to 1600Gbps aggregate throughput and can be applied in liquid cooling environments. Integrated with a heat sink and airflow channels, enhancing the cooling ...

The 1RU system provides a suitable boundary condition to support air-cooled switch applications as well as applications with alternative cooling techniques.

The Closed Finned Top (OSFP-IHS) version is suitable for Quantum-X800 air-cooled and liquid-cooled switches. It is the ideal solution for supercomputing and HPC industries, seamlessly integrating into ...

Celestica plans to contribute the DS6000/DS6001 spec to the OCP Community and list them on the OCP Marketplace with the OCP Inspired(TM) recognition. The DS6000 is a 3RU, 64-port x ...

We spotted Broadcom Tomahawk 6 102.4T switches from several vendors at Computex 2025 in 64-port 1.6TbE configurations

1.6T 2x FR4 OSFP flat-top optical transceiver module provides up to 1600Gbps aggregate throughput and can be applied in liquid cooling environments. Without heat sink, it can be fitted with the ...

NADDOD NVIDIA/Mellanox compatible OSFP-1.6T-2FR4FH is a 1.6Tb/s twin-port OSFP optical transceiver, delivering 2x800Gb/s links over single-mode fiber (SMF) within up to 2km. It is designed ...

Designed for advanced cooling environments, it features hybrid air + liquid cooling with ORv3 compatibility, making it especially suitable for high-density installations.

The DS6000 is a 3RU, 64-port x 1.6TbE data center switch for traditional air-cooled data center installations.
