

Our Power+(TM) composite fiber cable delivers remote power and network connectivity beyond 100 meters for PTZ cameras, DAS, and PON applications.

CommScope designs and manufactures a comprehensive line of fiber optic cables--from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

Power+ composite cables are ideal for long distance PTZ camera installations, Distributed Antenna Systems (DAS), and Passive Optical Networks (PON). Power+ composite cables are available with a ...

Find your composite optical cable easily amongst the 16 products from the leading brands (CORNING, LAPP, Cavicel, ...) on DirectIndustry, the industry specialist for your professional purchases.

The Slimline family of hybrid powered fiber cables combines a fiber optic cable with two copper conductors enclosed within the same jacket, allowing external power to essentially be "pushed" from ...

Achieve ultimate flexibility by bringing together the future-ready bandwidth capabilities of single-mode optical fiber and the powering capabilities of copper with Corning's ActiFi Composite Cable.

DuetConnect Hybrid Copper-Fiber Cables allow one cable to offer the advantages of DC power and fiber, safely delivering both over long distances to remote locations where standard power is ...

Ultra-rugged, reliable and versatile, our cable is the product of a proven commitment to innovation and quality. It is engineered to function flawlessly and made from the finest materials, with ...

By integrating linear laid copper and loose-tube fiber in one cable, ActiFi® cables eliminate the need to install separate power and fiber cables. This saves installation time, labor costs and duct or tray space.
