

Calculate the minimum required bend radius by multiplying the cable's outside diameter by its bending factor (e.g., 10x for multicore). Then, select a standard tray fitting (300mm, 450mm, etc.) that ...

Cablobend Systems give you the freedom for true cable tray flexibility. Create bends and drops that you need--without cutting. Perfect for data centers.

RKS-Magic[®]; Quick Install Trough Tray The RKS-Magic[®]; system features our patented Magic Connection System, providing rapid, screwless connections. A comprehensive range of fittings with ...

Cable Tray Junction Kit, 90 Degree, Carbon Steel Cable Tray Fitting, 90[°]; Junction Kit. Material: Carbon Steel. Finish: Electroplated Zinc. Includes: (1) Hardware for (1) Tee (2) 90[°]; Bends.

Cable Tray 90[°]; Vertical Inside Bend, 24" Radius, 24" Wide, 6" High, Aluminum

We offer a variety of cable tray flat bends available for light, medium, and heavy duty cable tray systems in varying sizes to suit your requirements.

The Wire Basket Overhead Cable Tray Routing System is composed of pathways, splices, mounting brackets, and accessories that allow the system to be configured for a wide range of applications and ...

The Ladder Tray features light, rugged, tubular steel construction. It is designed for mechanical support and strain relief in long runs of cable and creates a smooth gradual bend for cable. Rail and stringer ...

A cable tray bend is a connecting element used at points where the cable tray changes direction. It ensures that the cable trays smoothly change face at corners and angled turns along the cable route.

Our company is a trusted manufacturer of high-quality bends for cable trays, engineered to provide seamless transitions and superior support in cable management systems.
