

FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards.

CommScope engineers and manufactures a complete line of high quality fiber pigtails

Fiber Optic Pigtail assemblies are utilised in terminating fiber optic cables via fusion splicing. Iveonet (TM) offers a wide range of pigtails, designed and manufactured for demanding network applications, ...

High-quality fiber pigtails with pre-terminated connectors on one end and exposed tight-buffer fiber on the other. Available in single-mode and multimode (LC, SC, FC, ST), customizable, factory-tested, ...

The SC Fiber Pigtails (APC, UPC) are available in both single and multimode versions. Our Fiber Pigtails come with a partial outer jacket, protecting the tight buffers from damage.

We stock a wide variety of pigtail fiber types, including single mode and multimode, with all major connector options like SC, LC, ST, and FC available with UPC or APC polish.

Our SC duplex fiber optic patch cord offer reliable, high-speed connections for voice, data or video in data centers, offices, and telecom rooms, with fire-retardant options available.

Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails offer low insertion loss and custom length options. Economy pigtails offer over a compelling ...

These pigtails feature premium-grade jackets and are equipped with LC, SC, ST, and FC connectors, typically with a 0.9mm outer diameter cable. Additionally, we provide options for simplex and duplex ...

Traditional Fusion Splice-On Connectors with pigtails provide factory-polished performance with field-termination convenience within harsh environments. Mass fusion splicing can fuse up to all 12 fibers ...
