

High-quality fiber pigtails with pre-terminated connectors on one end and exposed tight-buffer fiber on the other. Available in single-mode and multimode (LC, SC, FC, ST), customizable, factory-tested, ...

Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails offer low insertion loss and custom length options. Economy pigtails offer over a compelling ...

Our fiber optic pigtail offers a flexible solution for your data centers and telecom rooms, connecting existing equipment to spliced fiber optic lines for network expansion.

SINGLE-MODE SINGLE-CORE JUMPER: high-quality environmentally friendly PVC material, sturdy and durable, the tensile strength is greater than or equal to 200N. The product has good repeatability ...

The OS2 bend insensitive fiber optic pigtails have less attenuation when bent or twisted compared with traditional fiber optic pigtails and this will make the installation and maintenance more efficient. Fully ...

Fiber optic pigtail only has one end of a connector, while the other end is a fiber core break, which is connected to other fiber cores through fusion splicing. This LC pigtail single mode is often found in ...

Confused about fiber optic pigtails--which connector type, which polish, fusion or mechanical splice? Our guide covers LC vs SC, APC vs UPC, splicing methods, and real-world use ...

CommScope engineers and manufactures a complete line of high quality fiber pigtails

Our 12 strand LC-UPC Singlemode Fiber Pigtail Kits are available in standard and bend insensitive glass, utilize color coding and perform to meet TIA-568-C.3 standards.

High quality pre-terminated 900µm optical fiber pigtails with LC, SC, ST connectors for fiber splicing applications. Choose from single mode, multimode and 10G OM3/OM4 fibers.
