

EdgeReady micro data centers are expertly configured solutions that are fully customizable for diverse edge deployment strategies and feature 3-5 day order to shipment.

Deploy technology at the edge or anywhere your data is generated with modularized, integrated racks, fully configured and ready to handle your IT needs now and for the long haul.

With our modular container system, you will always find the right solution for your application. Modular container-housed data centers offer the perfect and scalable solution, whether ...

Modular data centers assure scalability for future expansions, embody repeatable designs, and exhibit superior quality via factory control. This simplified assembly enables swift transportation by road, rail, ...

Discover how a micro or modular data center can revolutionize your IT infrastructure. Contact INTUVA to schedule a consultation and take the first step toward scalable, efficient, and cost-effective data ...

Schneider Electric Prefabricated Modular Pod Data Center is engineered for speed, scalability, and flexibility. It supports up to 40+ high-density racks per pod with hybrid liquid-air cooling.

Delta's modular datacenter solution offers a datacenter environment that provides safe equipment operations within the racks, and supports the development and standardizing of micro datacenters ...

Nearly every aspect of the data center can be customized--from rack layout and power configuration to cooling type, flooring, lighting, and security systems. We design each system to meet your specific ...

Modular data centers are built in controlled factory conditions, fully tested before shipment, and deploy in months, not years. You get predictable performance, step-by-step scalability, and on-premise control ...

Learn what a micro data center is, why it may suit your business, and how to build one without the cost and complexity of a full-scale facility.
