

DSX-5000 modules certify twisted pair cabling to Cat 7A/Class FA limits (1000 MHz) in less than 16 seconds. This guide provides basic information to help you get started using the tester.

The Fluke Networks DSX-5000 Cable Analyzer is a cutting-edge solution for fast, reliable copper and fiber cable certification. Designed for professionals who need high-performance testing on the go, ...

[View online or download Fluke CableAnalyzer DSX-5000 User Manual.](#)

The Fluke Networks Versiv DSX-5000 CableAnalyzer improves the efficiency of copper certification with unmatched speed for testing Cat 6A and Class FA while meeting draft IEC Level V - the most ...

Running a test on the DSX-5000 CableAnalyzer is Part 3 of 4 in a series of getting started videos. Length: 4:48. Fluke Network"s - Knowledge base- Video Module, #3 of 4: DSX-5000 CableAnalyzer ...

The DSX Series includes the DSX-8000, which can certify cabling up to Cat 8 / 2 GHz, and the DSX-5000 which can certify up to Cat 6A / Class FA / 1GHz. The Versiv line also includes fiber OLTS ...

The DSX-5000MI CableAnalyzer copper test solution with the CertiFiber Pro Multimode OLTS module and Fiber inspection camera enables testing and certification of twisted pair cabling for up to 10 ...

The DSX-5000MI CableAnalyzer copper test solution with the CertiFiber Pro ...

You can quickly validate projects and test results in real-time with browser based ease to avoid any future rework due to incorrect testing or missing test results.

Accelerate the copper certification process with this copper cable certifier which certifies twisted pair CAT 5e, 6, 6A, and Class FA cabling with limits up to 1000 MHz. In addition, this certifier features ...

The DSX-5000 CableAnalyzer enables cable testing and certification for 10 Gigabit Ethernet deployments -whether it is an existing Cat 5e, Cat 6, Cat 6A or Class FA cabling system, the DSX ...
