

Dimensions of Explosion-Proof Lighting Distribution Boxes in Norway

Polyester distribution boxes have been of great advantage in many industrial plants. They offer safe protection even when they are exposed to extreme environmental conditions, aggressive chemical ...

The boxes can be combined and installed freely to save space and meet the requirements of various distribution systems. Client requirements incorporated on request.

Durable Hexlon Explosion Proof Distribution Boxes and Electrical Enclosures, IECEx and ATEX certified for Zone 1 and Zone 2.

Equipped with specialized hinge structure, which can prevent the flameproof joints from damage when opening and closing the box, and greatly prolong the service life of box. The boxes can be combined ...

Please specify the number and size of cable entries and sides of the enclosure to be fitted. 2. Electrical schematic diagram shall be provided by user. Photo switch, AC contactor, thermal relay or others on ...

AGP17 ATEX and IECEx explosion-protected distribution boards are designed for MCB distribution of lighting circuits, heating circuits and socket distribution in Zone 1, 2, 21 and 22 hazardous areas.

Customizable configuration of operators, cable entry quantities and cable gland types as per specification. The enclosure series EJB forms the optimal basis for the application-specific ...

Explosion proof junction boxes with detachable covers which are secured to the body by high tensile screws. Available in five sizes, these boxes provide a wide range of termination and distribution ...

Equipped with specialized hinge structure, which can prevent the flameproof joints from damage when opening and closing the panels, and greatly prolong the service life of box. The boxes can be ...

Flameproof and explosion proof, these power overhaul distribution boxes are suitable for use in hazardous areas. Main switch: Maximum current is 180A. Branch circuit: Maximum current is 63A. ...
