

Boyd's 4U Liquid-to-Liquid Cooling Distribution Unit is a state-of-the-art cooling system that maximizes cooling capability in its given volume. Boyd's 4U CDU has a capacity of up to 110 kW depending on ...

We manufacture fully customized racks designed to support cold aisle solutions that align with your airflow requirements and energy efficiency goals. With NexGen's precision manufacturing, you'll have ...

Vertically integrated manufacturer of hot aisle containment, cold aisle containment, white space structure and conveyance solutions.

Cool Shield is an industry-leading aisle containment system solutions company. Our experts are ready to customize a solution to fit your data center today!

Maintain optimal temperature control in your data center while ensuring easy equipment access with our containment dual sliding door, accommodating aisle widths of four and six feet.

The Eaton Boyd Thermal 4U liquid-to-liquid Cooling Distribution Unit is a state-of-the-art cooling system that maximizes cooling capability in its given volume. The 4U CDU unit has a capacity of up to 110 ...

By creating a physical barrier between cold supply air and hot exhaust air, containment solutions prevent airflow mixing and deliver over 95% airflow efficiency under normal operating conditions.

Our company offers the DHS-X430175-01 coolant distribution unit, a 4U height, and 19-inch rack-mounted appliance designed to distribute coolant through the cold plate loop.

GH HEAT LOAD APPLICATIONS The nVent HOFFMAN RackChiller CDU40 is a rack-based Coolant Distribution Unit (CDU), built for the needs of today's most demanding HPC requirements. Capable ...

4U Coolant Distribution Unit necessary solution to replace conventional air cooling. Boyd's new 4U Liquid-to-Liquid Cooling Distribution Unit (CDU) is a state-of-the-art cooling system
