Distribution Box Module Terminals

Modular rail-mount terminal blocks are ideal for both custom- and ready-made terminal strips for panel mounting applications. These terminal blocks can be mounted via screw flanges, snap-in feet for ...

Terminal block distribution modules, also known as distribution blocks, are essential electrical components designed to efficiently distribute power from a single source to multiple circuits ...

Discover how to improve the distribution of power inside your electrical cabinets thanks to our compact and modular design that allow easy installation combined with a great flexibility of use.

Terminal blocks, protectors and distribution blocks Quickly and easily find the right products and accessories for your applications. Start your sales inquiry online and an expert will connect with you. ...

Two provided with box. One set provided with box. Dimensions are shown in mm (in.). (1) Replace x with 1 [1 m (3.28 ft)], 2 [2 m (6.56 ft)], 3 [3 m (9.84 ft)], 5 [5 m (16.40 ft)], or 10 [10 m (32.81 ft)] for standard ...

These terminal blocks feature 2 of 35mm² input connection points for power distribution and a 6mm² output connection for pole lights. Their design is ideal for XLPE-type cables, commonly used in street ...

These blocks are modular, stackable, and easily expandable, allowing system builders to customize layouts as needed. Their robust construction ensures long-lasting performance in demanding ...

With the configurator, tailored solutions consisting of distribution blocks, function distribution blocks, and device terminal blocks in different colors can be created easily and intuitively.

Power distribution terminal blocks are used for branching a single source of power to multiple circuits via push-in, screw connection, threaded stud or quick connect poles.

Terminal Distribution Box, 125A 500V Screw Terminal Strip Blocks, 4-Level Junction Box, Din Rail Terminal Block, 4 Input 24 Output, Cabinet Wire Splitter Connector, with Transparent Protective Cover
