

Dual-input power distribution box

Designed to handle up to 250V AC/DC at 30A max, this versatile module features dual input terminals for connecting one or two power supplies, enabling redundancy when needed. It splits power into 12 ...

Huawei DPD100-6-20 is a DC Power Distribution Box featuring dual inputs and multiple outputs, designed for efficient power management in telecom and data center environments.

Browse power distribution boxes with circuit breaker protection and multiple outlet configurations. Shop durable solutions for construction and emergency use.

Introducing the Altronix PDS8 Dual-Input Power Distribution Module, a reliable solution for managing power from two low voltage AC or DC sources. This innovative module features eight outputs, each ...

This is a perfect power input panel for systems requiring dual 15amp power inputs from separate sources, the panel can also be beneficial as a master power switch for 2 separate systems when ...

Tripp Lite PDUs distribute power via multiple outlets to computers, servers and other rack-mounted network equipment.

Picture yourself in a situation where your electricity suddenly cuts out--everything comes to a standstill, the system breaks down, and expenses begin to soar. A dual power switch box ...

PDS8 dual input power distribution module is designed to steer the power from either two (2) low voltage AC or DC power sources. This power is distributed over a total of eight (8) fused protected outputs.

Tripp Lite's PDUMV40 Metered Distribution Unit gives you the performance and flexibility of two independent, high-current power circuits--without the extra expense, space requirements and ...

The company's extensive product portfolio encompasses a wide range of offerings such as Electrical Enclosures, IP68 terminal junction boxes, server cabinets, water dispensers tailored for school and ...
