

Dual-port fiber optic socket panel

This 2 port indoor Wall Mounted Optical Fiber Distribution Box FTTH Termination Box is used for splicing and termination between indoor SC LC FC fiber optic cable and pigtails. used for wall mounted to ...

This wall-mount fiber optic outlet box provides end-users with a fiber cable termination solution in FTTH, FTTO, and FTTB networks. Our fiber wall socket outlets are suitable to fix SC, ST, FC simplex, and ...

This wall outlet box is for joining fiber optic cable and pigtails. They protect fiber ...

Dust-proof design with IP-45 Protection Level. Integrated with splice cassette and cable management rods. Manage fibers in a reasonable fiber radius condition. Easy to maintain and extend the capacity. ...

The optical fiber desktop box is equipped with dual optical fiber adapter placement holes and pigtail or flexible cord outlet holes, which can realize single-core or dual-core optical fiber access and port output.

Compact and flame-resistant 2 Ports Fiber Optic Socket Panel for FTTH applications. Compatible with SC/LC/FC adapters, ideal for wall-mounted or desktop installations. Easy to install with push-cover ...

With identification paper and identification cover, convenient for maintenance and use.

This 86-type dual SC port fiber termination box provides a professional solution for FTTH drop points, office networks, and home fiber installations. The compact 86x86x25mm design integrates two SC ...

The dual-port optical fiber panel box facilitates the storage of optical cables and redundant memory, which met the storage requirements of redundant optical cables and ensured the ...

The 2 port fiber outlet box is used as termination point to interconnect incoming cable with optical network unit device in FTTH, FTTB applications. It is typically installed inside the subscriber's home ...

This wall outlet box is for joining fiber optic cable and pigtails. They protect fiber optic splices and are ideally used for telecommunications industry.
