For my use case, I'd like to use something 10m or shorter and 10-20m bands. It'd be nice to have 40m and also some of the intermediate bands (17m, 15m, 12m) but if the design doesn't ...

Where the opening to an outlet, junction, or switch point is less than 200 mm (8 in.) in any dimension, each conductor shall be long enough to extend at least 75 mm (3 in.) outside the opening.*

Each pigtail is made with 12 AWG insulated stranded copper wire (unless otherwise noted) and includes a factory-crimped flanged spade or ring terminal for secure, precise electrical terminations.

Pigtail wiring is crucial for safely connecting multiple circuit wires to a single device. Pigtails should be at least six inches long and match the gauge of the circuit wires. Always ensure ...
