

An SFP-25G-BX40D-I device is always connected to an SFP-25G-BX40U-I device with a single strand of standard SMF. The communication over a single strand is achieved by separating ...

The modules are suitable for 25G Ethernet and CPRI (option 10) applications, like in 5G mobile networks. The family offers modules for the i-temp range from -40°C to +85°C and has ...

A 25G SFP28 AOC fills the practical gap between short copper DAC and modular SR optics. It gives you plug-and-play simplicity, predictable optical performance, and clean cable ...

Multi-vendor coding options available for your 25GB Ethernet requirements. Available in Multimode, Single Mode, Extended Range & Long Reach Multi-mode. In addition to GBICS codable SFP28 ...

25GBASE SFP28 Active Optical Cable, Armored, Industrial-grade TSSSS-85E-XXXD/ TSSSS-85E-XXXU Active Optical Cables Multi-Mode 25G BASE SFP28 SR Active Optical Cable, ...

It contains one fiber optic transceiver per end, operating at data rates of up to 25Gb/s. The AOC offers selectable retiming for both its optical transmitter and receiver for the 25Gb/s rate, ...

Product Datasheet 25G SFP28 Active Optical Cable Application Data center & Networking Equipment Servers/Storage Devices High Performance Computing (HPC)

JPT offers high-performance active optical cables and direct attach cables with high bandwidth, low latency, and strong compatibility. Perfect for data centers, cloud computing, and high-speed ...

These 25G SFP28 assemblies are capable of transmitting data up to 25Gb/s, offering an easy installation with a flexible, multimode fiber cable.

Engineered for low power consumption, high port density, and enhanced data throughput, the SFP28 optical transceiver delivers an efficient and cost-effective path to 25G network upgrades.

Amphenol's 25G SFP28 optical modules include AOC series, which are compatible with IEEE802.3by and IEEE802.3cc. They are compliant with SFP28 MSA, SFF-8431 and SFF-8432, it is ...
