

Explore our collection of optical cable splitters and PON splitters for sale. Optical beam splitters are used to split the fiber optic light evenly into several parts at specific ratios. Buy optical splitters and passive ...

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

Fiber Couplers/Splitters/Combiners We offer a full line of fiber optic couplers and splitters supporting SM, MM, PM, large core, and double-clad fibers across 300-2000 nm, with power handling up to 100 W ...

Optical splitters play a crucial role in Fiber to the Home (FTTH) Passive Optical Network (PON) systems, efficiently distributing a single optical signal to multiple destinations. The split ratio ...

A fiber optic splitter is a passive optical component that divides a single incoming optical signal into two or more outgoing signals, or combines multiple incoming signals into one. Unlike ...

Distribute optical signals efficiently with Ross Video Optical Splitters--single and dual 1&#215;2, 1&#215;4, 1&#215;8 passive splitters for openGear modular frames. Reliable, power-free, high-performance fiber signal ...

Our SM and double-clad fiber coupler offerings also include a selection of components ideal for OCT applications.

The configuration below has individual splitters at a central location, but addresses that are typically not reconfigurable by jumpers, so this configuration is a "distributed" split.

PoF optical power splitters enable centralized, scalable power and data delivery in SMB fiber networks, simplifying deployment and extending reach.

Fiber splitter solutions from Maxcom featuring PLC technology, low insertion loss, and high reliability. Ideal for CATV, RFoG, FTTx, and FTTH optical networks.
