

Use with AFL APEX X-2 splice closure. Splice trays feature a universal splice module that holds up to 18 single fusion, 6 mass fusion or 12 mass fusion double-stacked when using SWR, or 6 mechanical ...

Corning Cable Systems splice trays use proven designs and fiber organization technology to provide optimum physical protection for fusion and mechanical splicing methods.

The trays are engineered to use with both loose tube and tight-buffered optical cables. Their generous size and craft-friendly design help prevent induced attenuation due to fiber bending.

Fiber optic splice trays are designed to provide a location to store and to protect the fiber cables and the splices. Each tray provides space for mounting fiber splice protectors and excess fiber. It's divided ...

Splice trays are designed to hold individual or mass fusion spliced fibers. These trays are typically installed within fiber optic enclosures and patch panels. They're compact, lightweight, and available ...

The 12-Fiber transparent fusion splice tray is ideal for fusion splicing single fiber. ...

Leviton Injection Molded Mini Splice Tray, Heat Shrink Style (accepts standard sleeves), up to 12 Fiber Splicing, T5PLS-12F Add to cart

To prove you're not a bot, solve this simple math problem. The machine translated document is now available for download.

Corning splice trays use proven designs and fiber organization technology to provide optimum physical protection for fusion and mechanical splicing methods. The trays are engineered for use with indoor ...

The 12-Fiber transparent fusion splice tray is ideal for fusion splicing single fiber. The see through cover and mylar insert enable easy viewing when visual fault locator (VFL) testing and verification is ...

Fiber splice trays for Corning, PLP, AFL, Multilink enclosures. Holds fusion or mechanical splice sleeves. Coyote, Starfighter, Lite-Grip, Type 2S, 2R, 2M, 4A, 4R, 4S, and more.
