

Fiber Optic Cable Tube Shrinking Machine

Our efficient SZ stranding technology is designed to manufacture fiber optic al cables for a wide range of indoor and outdoor applications. The stranding process guarantees low stranding tension fluctuation, ...

This is an automatic heat shrinkable tube heat shrinking machine, which is widely used in the wire harness processing industry. Both of the upper and lower sides of the heating area are equipped with ...

This is an automatic heat shrinkable tube heat shrinking machine, which is widely ...

Schleuniger EcoCut 3300 Cable Cutting Machine. The EcoCut 3300 is designed to automatically cut all kinds of material including wire, cable, round ...

All products of fiber optic cable shrinking equipment enjoy good prices and high quality. Please be free to buy fiber optic cable shrinking equipment for sale with our company which is one of leading ...

The tube shrink wrap machine is a critical component in modern wire harness manufacturing. It automates heat-shrink tubing application, ensuring clean sealing, abrasion ...

One of the standout features of the Haloblaze MTP-4 is its efficiency. This machine can shrink tubes in a matter of seconds, saving valuable time in production processes. Its quick heating capabilities ...

AMTI Products specializes in automated processing solutions for heat shrink tube, loom tube, textile sleeving, strap, wire, and cable. Our American-made SLICE(TM) and SHRINK(TM) machines offer ...

The Haloblaze Heat shrinking machine device is designed to reduce the costs of heat shrink tube processing. There are two models in the range, EcoShrink-D4 & HDTR-D4.

Automatic Heat Shrink Tube Heating Machine is used to heat less than OD 5.0mm optic patch cable; the portable structure applies to narrow or moving working space. The parameters and temperture can ...

TE Connectivity"s (TE) Model 105 (M105) tunnel oven offers a controlled process for a wide variety of heat-shrinkable products.
