

Our fiber optic trunk cables provide high density connections to patch panels, cassettes or cable harnesses. Order a single or multi mode cord online today!

With manufacturing in the United States, Legrand fiber trunks are built to match our high-quality standards, provide more design flexibility, and allow for faster delivery of trunks for your installation.

Rosenberger OSI introduced high-fiber-count factory assembled fiber optic trunk cables based on loose tube indoor, universal and outdoor cables to the market in 1991.

Fiber optic trunk cables are available pre-terminated and tested to ensure high performance and reliability. This reduces the likelihood of performance issues related to improper termination or ...

Discover the various types of fiber optic trunk cable available, including different connectors and configurations to suit your specific needs.

Leviton fiber trunks are pre-terminated cable assemblies, and are ideally deployed in data centers and enterprise fiber networks.

MPO MTP Trunk Cables: 2026 Guide for High-Density Fiber Architecture The transition toward 800 Gbps and early 1.6 Tbps Ethernet in data centers has fundamentally altered ...

Amphenol's Trunk Cables deliver fast installation, scalability, and high performance for backbone, horizontal cabling, and data center networks.

ZION MPO Trunk Cables are pre-terminated multi-fiber backbone assemblies designed for high-density optical interconnection in data centers, structured cabling systems, cassette links, patch panel ...

Our pre-assembled MPO female trunk cable tackles high-density data center network connections and combines multiple fiber optic lines into a single, easy-to-manage cable.
