

Fiber optic cable binding wire for telecommunications mobile and outdoor communications

Browse our optical communication connectivity products designed to help you enable your communication networks. Easily create a bill of materials list.

PLP is a worldwide designer, manufacturer and supplier of high quality cable anchoring and control hardware and systems, fiber optic and copper splice ...

Forming cables with multiple strands is simplified using our precision-engineered stranding solutions. They are suitable for manufacturing ...

Modern telecommunications depend on fiber optic cable attachment machine as basic building blocks for fast data transfer over great distances. These devices and systems use light to transport data and ...

From indoor to indoor/outdoor to outside plant cables, we offer a wide range of fiber optic cables that are easy to install and provide high-density connectivity.

RLH is recognized as an innovator in the fiber optics industry, and has pioneered solutions for High Voltage Isolation, PCS, and Critical Communications applications just to name a few.

Lashing wire is typically employed to hold fiber optic cables and messenger wires together. Fiber optic cables, which transmit data, require structural support to stay in place, and messenger wire provides ...

Custom telecommunications wire harnesses for 5G base stations, fiber optic networks, cell towers, and data transmission equipment. RF shielded, outdoor rated. ISO 9001 certified.

AFL Fiber Optic Cable offers a complete solution for all of your needs, from aerial to underground to indoor to outdoor. We have a wide variety of fiber cable types to choose from, including single-mode, ...

PLP is a worldwide designer, manufacturer and supplier of high quality cable anchoring and control hardware and systems, fiber optic and copper splice closures, and high-speed cross-connect devices.
