

Explore fusion splicers compatible with single-mode, multi-mode, and specialty fibers. Get machines with rapid splicing and integrated diagnostic tools.

Fusion splicer is a precision instrument used to join two optical fibers end-to-end using heat, typically achieving very low splice loss.

AFL Fusion Splicers provide you with the precision and reliability you need to splice your fibers. We offer a wide range of fusion splicers to choose from, including benchtop fusion splicers, field fusion ...

Fusion splicers are essential for creating low-loss, high-performance fiber optic connections in telecom, FTTH, and data center applications. The best splicers offer core alignment, ...

FITEL splicers are simple yet precise and reliable tools that can support a full range of fiber manufacturing, R& D, installation, and maintenance applications. Fusion splicing permanently joins ...

The M5 Fiber Optic Fusion Splicer is an intelligent, fully automatic fusion tool engineered for fast, accurate, and reliable splicing of SMF, MMF, DSF, and NZDSF fibers.

We are experts when it comes to fiber optic fusion splicers. We carry all major brands in stock and ready to go.

Designed for telecom professionals, FTTH installers, and network engineers, this machine delivers ultra-fast splicing speeds ( $\leq 6$  seconds) and low loss rates, ensuring reliable connections in any environment.

We distribute fiber optic splicing equipment from Corning, AFL, Sumitomo, 3M, 3SAE, Fitel and more.
