

Fiber optic cold-splitting quick connector for connecting flexible wire

Widely applied in FTTH, FTTx, LAN, and telecom networks, this cold fast splicer connector is perfect for emergency repairs, field terminations, and both temporary and permanent fiber links.

These quick connectors are pre-polished and designed for fast field termination, eliminating the need for epoxy and polishing, unlike traditional fiber optic connectors that require extensive preparation.

The preset v-groove design locks the fiber securely with up to 20N pull tension. Perfect for FTTH drops, CATV repairs, LAN extensions, or any field termination where speed matters.

OCC | sku: RFC-LC8 OCC LC Singlemode Xpress Ultra Fiber Connector 900um - RFC-LC8 \$13.40 Add to Cart

Convenient Use: Complete splicing within 90 seconds (excluding fiber optic processing), with linkage design to eliminate fiber bending or breakage caused by ceramic core compression and fiber optic ...

Upgrade your fiber installations with the Professional FTTH Fiber Optic SC-APC Cold Splice Quick Connector and experience how effortless high-performance connections can be.

FASTConnect field installable connectors include LC, ST, SC and are compatible with 250 μ m and 900 μ m fiber optic cable, solutions designed for quick, tool-less termination. Ideal for enterprise, FTTx, ...

Quick Termination Connectors are a type of fiber optic connector that is factory pre-polished to save installation time in the field. These connectors use mechanical splice technology to attach to the field ...

The Quick Connect Fiber Optical Cold Fast Splicer Connector is designed for rapid, reliable fiber termination without the need for epoxy, polishing, or specialized splicing equipment.

FS Fiber Termination Kits (Fiber Splice Tray, Protection Sleeves, Fiber Connectors, Ferrules, Sleeves, etc) achieve faster fiber termination and higher performance.
