

The STL RIBBON-LITE Multitube Single Jacket Cable combines robust performance for duct installations with high-count mass fusion splicing productivity. Twelve optical fibers are arranged in ...

Take advantage of DC power and fiber in one cable to safely deliver low-voltage power and data Ideal for high-definition (HD) cameras with the ability to multiplex audio and video signals Combine the ...

Fiber Optic Cables, Adaptors, & Accessories Our extensive offering of fiber optic cables, connectors, cassettes, enclosures, patch cords, cable assemblies, cable distribution products and accessories ...

Cables with rollable ribbons enable mass fusion splicing by making individual fiber breakout easier than cables with flat ribbons. In addition, rollable ribbon cables allow users to literally double the fiber ...

Our mass fusion splicer, TYPE-72M12, combined with dry cable construction brings you a dramatic working efficiency. By splicing 12-fiber ribbons at once, the splicing time is up to 5 times faster than ...

Designed to meet the demands of today's data-intensive world, these cables are comprised of multiple optical fibers bundles in a flat ribbon format that is high density, lightweight, and durable.

Faster Installation FREEFORM Ribbon(TM) Technology enables 12-fiber mass fusion splicing and easy storage in a closure. It speeds up optical cable installation time by up to 5 times.

Ribbon fiber optic cables offer high-density connectivity with efficient mass fusion splicing. Learn about their advantages, installation challenges and practical tips for optimal performance.
