The 40GBASE-ER4 QSFP+ transceiver supports a link length of up to 40km on single-mode fiber (SMF) at 1310nm wavelength. It is interfaced with a duplex LC connector.

A cost-effective solution that provides high bandwidth and transmission rates over short distances. Each transceiver is 100% optically inspected and tested for compatibility before shipping.

The 40G QSFP+ ER4 optical module has technical advantages such as long transmission distance, high efficiency, and low management cost, which is essential for data center network construction. This ...
