

Huijue uses optical modules from other manufacturers

The Huijue Group's Optical-storage-charging application scenario is a typical application of microgrid energy storage. The core consists of three parts - photovoltaic power generation, energy storage ...

They have been widely used in fiber communication, management of LAN & Ethernet, campus network, intelligent district, and electronic government affairs engineering, as well as some other industries.

Established in 2010, this Jiangsu-based innovator designs communication modules that make solar farms, wind parks, and battery storage systems actually talk to each other.

Our company introduced advanced technology and equipment of overseas and gathered a large number of professional and management team. Our annual production capability is beyond two hundred ...

The derivative products and devices launched for the FTTH market include planar waveguide splitters, high-performance optical fiber connectors, field remote jumpers, and on-site assembly active ...

Huijue Group's comprehensive range of energy storage solutions, including Industrial ESS, Telecom Energy Solution, Home Energy Storage, and Energy Storage Battery systems, is revolutionizing the ...

Shanghai Huijue Network Communication Equipment Co., Ltd. (Huijue Group) specializes in energy storage solutions, offering integrated optical storage, charging microgrids, scheduling monitoring, and ...

As one of the largest suppliers of new energy storage systems in China, Huijue Group has always provided customers with advanced energy storage system solutions and a full range of energy ...

Our production base is equipped with eleven assembly workshops, such as workshops of sheet metal, patch cord, fiber optic cable etc. From early product design to late product production, we can...

The intelligent energy solutions developed by the company are widely used and recognized in domestic and international markets.
