

For configuration and supervision of Industrial Ethernet networks Designed for network monitoring, diagnostics and visualization for ConneXium and Hirschmann Infrastructure devices and Schneider ...

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to ...

Our integrated circuits and reference designs help you to build an industrial grade communication switch for harsh environments, long service life and the ability to protect the network against attacks.

Industrial automation engineers have created industrial Ethernet switches by adapting Ethernet to accommodate the stringent, deterministic-network requirements of manufacturing automation ...

Our hardened industrial Ethernet switch family includes both industrial managed switches and industrial unmanaged switches, offering features such as PoE support, gigabit ports, SFP slots, and variable ...

Leading provider of industrial networking solutions, offering reliable Ethernet switches, fiber transceivers, Serial Device Server,DTUs,CPE and IoT devices for factory automation, smart cities, and harsh ...

The ABB IDS-DTU51 is a robust industrial communication module designed for seamless data exchange between various devices, enhancing productivity and efficiency in industrial settings.

Industrial Ethernet Switches from AutomationDirect, the best value in industrial automation - low prices, fast shipping, and free award-winning service.

All products fulfill the highest requirements for reliable and flexible industrial Ethernet communication. Unmanaged switches are the simplest active network components for fast networking.

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting. This gives you the flexibility to build powerful ...
