

Integrated Panel for Network Cables Fiber Optics and Closed Circuits

Corning has a wide variety of hardware solutions to choose from to fit your cabling needs. Choose from racks, panels, modules, splice trays, ethernet fiber switches and other structured cabling components.

From the structured networking panel, you can run different types of cables depending on the signals you plan to distribute. Wire your home with high-performance cabling such as CAT-5e ...

Our fiber patch panel offers options for flexible cable management and seamless integration with various cassettes and fiber optic accessories.

Our extensive range of fiber patch panels & enclosures are designed to eliminate unnecessary, cumbersome obstructions and allow you to gain the benefits of structured cabling.

Changeable, scalable, compatible & fully integrated solutions designed for easy changes or upgrades, without altering your infrastructure, sacrificing performance or enduring downtime

Explore CommScope's efficient and scalable fiber splice panels designed for seamless connectivity. Accommodating LC, SC, and MTP/MPO connectors, these panels are ideal for data centers, ...

Properly designed rack mounts/patch panels are the vital foundation for any network, and Multilink's lineup features a wide variety of adapters, splice trays and fiber cable options.

As data traffic continues to surge and networks become more intricate, the use of fiber optic patch panels and cable assemblies simplifies cable management and ensures organized ...

These high-density fiber patch panels allow a mix-and-match of e2XHD fiber and copper snap-in cassettes - up to 96 LC fibers or 48 copper ports per RU. Cassettes quickly snap in and pull out of ...

The Primus Cable Fiber Dome Closure is manufactured and specialized in its encompassing design to suffice both above and below grade applications, supporting up to 6 or more cable entries.
