

Intelligent power distribution box for rail transit

As a full-industry chain solutions provider, we delivered innovative smart power distribution solution covering main substations, traction substations, step-down substations, and ...

Our flexible and scalable Starline Track Busway systems allow you to safely relocate power anywhere you need, anytime, without shutting down power. The unique turn-and-lock connection method used ...

Intelligent PHCC supplies optimum power to points heaters, operating automatically based on weather conditions. We design, manufacture, and maintain rail PSPs (container/brick), supplying 400V/650V ...

For the first time, the Luotuoqiao Station of Ningbo Metro Line 3 Phase II Project has achieved an intelligent power distribution system that combines virtual and reality in the lighting distribution room ...

The ICT Intelligent DIN Power Distribution Unit is designed to provide DC power distribution to six individual outputs each rated at 15 A max. The integrated Ethernet controller provides reporting of ...

Home / All Products / Power, Environmental, Security & Connectivity Hardware / Power Distribution Units (PDUs)

The ControlPlex Rack system delivers modular, intelligent power distribution with real-time monitoring and remote control for optimized energy management.

Our intelligent and mechanical boxes in the area of power and data distribution offer modular solutions for all voltage levels and at the same time optimize functionality - for maximum efficiency with ...

We design and manufacture custom electrical enclosures for the railway and tunnel sector, ensuring safety, reliability and long-term performance in the harshest environments. Key solutions: Engineered ...

RackPower Intelligent Power Distribution Units address controlling power on Cabinets as well as Open Frame Racks and Wall-Mount enclosures. Design your power solution using a variety of ...
