

QSFP-40G-SR-BD achieves 40GbE full-duplex transmission over a single pair of multimode fibers by using bidirectional (BiDi) optical signaling, where two separate wavelengths carry transmit and ...

RAD offers dual to single fiber solutions for high-speed, reliable networks. Explore our Bidi QSFP28 adaptors for seamless connectivity.

Walsun has launched the 100G QSFP28 ZR4 BIDI product, and ...

NEC's 100G QSFP28 BiDi optical transceiver enables the transmission and reception of 100Gb/s high-speed data over a single optical fiber. By enabling bidirectional transmission over a single fiber, this ...

Discover the differences between 40G BIDI SR, 40G SR4, and 40G UNIV modules. Explore their compatibility, transmission modes, and fiber types for optimal performance in your 40G ...

It uses a clever bidirectional communication setup over a single fiber strand, making it perfect for short distances. Operating in the wavelength range of 832 to 918 nanometers, it supports ...

The QSFP-100G-B20U4-I and QSFP-100G-B20D4-I transceivers provide single-fiber, full-duplex, 100Gbps connectivity as network traffic continues to grow driven by new wireline and wireless ...

Custom 100G QSFP28 BiDi Module Alleviate dark fiber exhaustion across your enterprise backbone. Our highly specialized 100G BiDirectional (BiDi) transceivers utilize a Simplex LC interface to ...

When the popular QSFP+ 40Gb bi-directional (BiDi) transceiver was released, it enabled data center operators, for the first time, to upgrade from 10Gb to 40Gb without the need to replace ...

FIBERSTAMP 40G QSFP+ SR BiDi optical transceiver is designed for short-distance interconnection between devices within data centers. It complies with the 40G Ethernet transmission protocol.

Walsun has launched the 100G QSFP28 ZR4 BIDI product, and will demonstrate 100G 80km single-fiber bidirectional service transmission at OFC 2024. This is another industry-first ...
