

# LED intelligent power distribution box cabinet

In the field of commercial display and intelligent interaction, Fitech is committed to providing intelligent solutions with display applications and artificial intelligence as the core.

Support remote switch power box, remote communication, power monitoring, temperature monitoring, fire monitoring and other operations through LED screen smart control system software.

The PLC LED Display Power Distribution Box provides intelligent control, alarm protection, and multi-mode operation for LED screens and industrial power systems. Available in 10KW-250KW capacities.

The main function of the LED display screen distribution cabinet is to realize power distribution control, distribute electrical energy to various load parts, and perform power-off protection ...

Compared with the traditional power distribution box, it is safer to cut off the strong power supply remotely, and it can save energy through the timing mode while controlling the equipments ...

With customizable configurations (tailored for both standard low voltage distribution cabinet and precision-engineered Mid-mounted distribution cabinet) and advanced protection features, the Power ...

LED display screens are large electronic devices, and good power distribution equipment is one of the important conditions for the system to achieve reliable op

Power conditioning and distribution cabinet that offers the benefits of a custom-tailored system while offering the convenience and cost savings of a pre-packaged, factory-tested solution.

Superior cord locking using standard plugs. Switch capable using dedicated cords. Slim profile to allow for cabling and air flow. Assembled in the USA Highly reliable with robotically soldered connections.

The EL2P PDU provides reliable, intelligent power distribution in hospitals and clinics, reducing install complexity and enhancing uptime for medical networks and digital records systems.
