

Find, compare, and request a quote for fluorescence spectrometers across leading suppliers at Labcompare; including access to product citations, related published figures, and first-hand reviews ...

Instruments and respective accessories used to characterize the fluorescence a sample. Includes assays for a variety of applications. Fluorometers or fluorospectrometers are used to identify the ...

The Agilent Cary Eclipse fluorescence spectrometer is sensitive, accurate, and flexible. Ideal for use as a routine fluorometer, the Cary Eclipse can easily be switched between fluorescence, ...

Compare Fluorometers / Fluorescence Spectrophotometers from leading suppliers on Biocompare. View specifications, prices, citations, reviews, and more.

We offer a selection of UV/VIS spectrophotometers and luminometers that provide precise measurements for a variety of research applications, from analyzing light absorption in materials to ...

Looking for high-performing, simple-to-operate instruments that help your lab achieve fast, accurate results? Our latest fluorescence spectrometers truly deliver.

The Hitachi F-7000 Fluorescence Spectrophotometer surpasses the competition with its superior performance, functionality, and reliability. Fluorescence Spectrophotometers

LabX is the premier marketplace for buying and selling new, used, and refurbished spectrophotometers UV-Vis/Fluor. Find spectrophotometers available for purchase online or send a ...

Our fluorometers help to simplify fluorescence analysis while conserving precious sample and time. The Invitrogen Qubit 4 Fluorometer is a cutting-edge benchtop device that accurately measures DNA, ...

HORIBA Scientific, the global leader in Fluorescence systems and Fluorescence spectroscopy instrumentation, offers the most extensive line of Fluorescence Steady-State spectrometers, ...
