

With the trend of high speed Ethernet, 10/40/100Gbps, Edgecore switches offer a complete set of advanced software features that will easily satisfy the demands of enterprises and SMBs everywhere.

Moxa's Layer 2 managed switches feature industrial-grade reliability, network redundancy, and security features based on the IEC 62443 standard.

A Layer 2 managed switch operates at the Data Link Layer, forwarding traffic based on MAC addresses within the same subnet or VLAN. It offers network segmentation, security features, ...

Designed for workgroups and departments, TL-SG5428 from TP-LINK provides full set of layer 2 management features. It delivers maximum throughput where you need it -- to high-performance ...

L2+ managed Ethernet fiber switch with 12\*1/10G SFP+ fiber ports. Built-in 30W power supply.

TSW212 is an L2 managed Ethernet switch with additional L3 features, like DHCPv6 client support and static IPv6 routing. This switch supports protocols, including ...

The Westermo range of managed layer 2 industrial Ethernet switches are designed for use in harsh environments and allow you to build cost-effective, reliable, secure networks.

Layer 2 switches and Layer 3 switches operate at different levels of the OSI model. A Layer 2 switch forwards data frames within the same local network segment using MAC addresses.

MGSD-10080F 6-Port 100/1000X SFP + 2-Port 1G/2.5G SFP + 2-Port 10/100/1000T Managed Metro Ethernet Switch

Layer 2 managed industrial Ethernet switches provide enhanced network monitoring and control with added security, filtering, and redundancy features to assure dependable data transmission.
