

The modular design enables faster field splicing and simple management of pigtails within the housing. Splice modules eliminate the need for individual splice trays within a fiber enclosure and provide ...

Leviton fiber optic pigtail kits are a good solution for mechanical or fusion splicing applications. Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails ...

Confused about fiber optic pigtails--which connector type, which polish, fusion or mechanical splice? Our guide covers LC vs SC, APC vs UPC, splicing methods, and real-world use ...

Traditional Fusion Splice-On Connectors with pigtails provide factory-polished performance with field-termination convenience within harsh environments. Mass fusion splicing can fuse up to all 12 fibers ...

Get a color-coded fiber optic pigtail from Discount Low Voltage that combines fusion splicing and LC pre-terminations for more reliable field connections. Use these 10-foot, 12-strand single-mode pigtails to ...

Simplify fiber termination with ZERO Connect's high-quality fiber pigtails. Our single-mode and multi-mode assemblies, available with various connector types, provide a reliable, low-loss solution for ...

AFL's pigtail assemblies help eliminate labor-intensive field termination, yet guarantee reliable performance. Featuring a unified construction allowing for easy fiber identification and rapid ...

LC (Lucent Connector) pigtails are short lengths of fiber optic cable terminated with LC connectors on one end and exposed fiber on the other. These pigtails are typically used for splicing, ...

SM LC ACP pigtail is suitable for optical fiber fusion splicing in industrial or FTTX installations. The APC polish increases the return loss value to 60db, which conforms to the TIA/EIA-604-10 standard, ...
