

Bend-Insensitive OS2 Fiber: Maintains optical performance in tight routing paths and high-density rack environments. Plenum-Rated 2mm Cable Construction: Suitable for installation in air-handling ...

L-com's OM2 50/125 Duplex Multimode fiber optic cables are constructed of the highest quality components and are covered by a one-year warranty. These fiber optic patch cables feature OFNR ...

This OM2 fiber patch cable is ideal for legacy Ethernet applications such as 1G and 10G over short distances. It provides stable signal performance and consistent bandwidth to meet everyday ...

Our cables are designed to provide exceptional performance characteristics, such as high bandwidth and low attenuation, which are critical for long-distance and high-speed communication.

Fiber Optic Cable Types Fiber optic cable is designed to transmit data using light signals instead of electricity, making it faster, more secure, and immune to electromagnetic interference compared to ...

Product Description This 2 meter (~6 feet) fiber optic cable is terminated with LC (Lucent Connector) connectors on both ends. It is a singlemode fiber (9 micron core) designed to transmit data across ...

Bend-Insensitive OS2 Fiber: Maintains optical performance in tight routing paths ...

Singlemode - 9/125 Singlemode OS2 Fiber Cable is used for high speed fiber optic networking, excellent for retaining light pulse fidelity over long distances, high bandwidth.

L-com's FOC-LCSM0220-0SU0 features a unibody design with a short boot for added durability in a high-density form factor. L-com's FOC-LCSM0220-0SU0 is in stock and available to ship same day. ...

This OS2 fiber patch cable is ideal for 1/10/25/40/100/400G Ethernet connections. It offers low signal attenuation and high bandwidth for long-distance transmission.

Find reliable LC to LC duplex fiber cables for your networking needs. Available in various lengths and fiber types for optimal performance.
