CommScope designs and manufactures a comprehensive line of fiber optic cables--from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

A fiber-optic cable, also known as an optical-fiber cable, is an assembly similar to an electrical cable but containing one or more optical fibers that are used to carry light.

This innovation reflects our commitment to high reliability. We offer a range of microduct solutions with inner diameters from 8 mm to 14 mm and larger. These small-diameter cables are lightweight yet ...

Our lab-grade and premium-grade UV-Visible optical fiber assemblies are durable, high-quality patch cords that deliver uniform results with minimal signal variance.

Providing up to 216 fibers in a compact design, the enhanced coupling features ensure the ribbon stack and cable act as one unit, providing long-term reliability in aerial, duct and direct-buried applications.

Our lab-grade and premium-grade UV-Visible optical fiber assemblies are durable, high-quality patch cords.

Take advantage of Digital Electricity safely with lots of power over long distances Take advantage of DC power and fiber in one cable to safely deliver low-voltage power and data Ideal for high-definition ...

Understand how to choose fiber optic cable by comparing single-mode vs. multimode, network speed and distance needs, cable jackets/fire ratings, connectors, cost and future-proofing for data and ...

Discover long optical cables for crystal-clear digital audio. Find fiber optic Toslink cables in various lengths for soundbars, TVs, and gaming systems.

Choose from our selection of fiber-optic cords, fiber-optic cable, DIN-rail mount ethernet switches, and more. Same and Next Day Delivery.
