

Metelec manufacture a range of Busbars including Aluminium, Flexible Connectors & Maxiflex

ROLINX busbars are constructed and manufactured laminated busbars that meet the strictest requirements for railway drive converters, network, wind and solar converters, as well as drives for ...

We specialize in custom aluminum tubular busbars, using high-quality aluminum alloys and advanced large-tonnage aluminum extrusion presses to produce thick-walled tubes.

Our primary manufacturing processes include progressive stamping, Computer Numerical Control (CNC) bending and our RigiFlex(TM) technology that delivers flexible solutions. We specialize in both low- and ...

With our complete portfolio (supporting insulators, clamps, tubes, stranded conductors, steel constructions etc.) you have a reliable partner for the entire system. No interfaces are required, ...

We provide sales, engineering and manufacturing support from our facilities in North America, Europe and Asia. Our experienced teams of applications engineers, supported by our regional design ...

We provide high-quality aluminum tubular busbars that comply with international standards (such as IEC, ASTM), with complete and customizable specifications, providing efficient power distribution ...

Lightweight, easy to machine, and corrosion resistant--all with material certificates for traceability. Choose from our selection of bus bars, including over 650 products in a wide range of styles and ...

With aluminium solutions for electrical use, such as tubular conductors and flat wires, we can contribute and create new value for your business. Aluminium is an excellent conductor of heat and electricity; ...

This section provides an overview for busbars as well as their applications and principles. Also, please take a look at the list of 30 busbar manufacturers and their company rankings.
