

New Edge Data Center for Smart Buildings

By 2025, the edge has evolved into a vital layer in the global digital ecosystem. These facilities now handle workloads ranging from AI inference for manufacturing to real-time traffic ...

Discover how modular edge data centers are transforming deployment with faster timelines, lower costs, and scalable, plug-and-play solutions.

Siemens has launched a new prefabricated data center module offering. Siemens Smart Infrastructure, Cadolto Datacenter, and Legrand Data Center Solutions announced this week that ...

Siemens, Cadolto and Legrand introduce new modular edge data center. The innovative system debuts at Data Center World Frankfurt, taking ...

Edge data centers process data close to end users, reducing latency from hundreds of milliseconds to single digits. Learn how edge computing works, ...

Edge data centers are compact computing facilities strategically placed close to where urban data is generated, enabling low-latency processing, local analytics, and greater resilience for ...

Edge data centers process data close to end users, reducing latency from hundreds of milliseconds to single digits. Learn how edge computing works, why AI workloads are driving ...

Edge data centers are key to maximizing the potential of smart cities. This means that they are key to solving, or at least alleviating, many of the issues common to urban environments. ...

Siemens, Cadolto and Legrand introduce new modular edge data center. The innovative system debuts at Data Center World Frankfurt, taking place on June 4-5, 2025.

Edge data centers are smart building solutions that deliver speed, efficiency and resilience. Explore how edge facilities reshape digital infrastructure.

ABB, HPE and Rittal offer the Secure Edge Data Center which enables an ABB Smart Buildings factory to secure vast amounts of data on premise while allowing reductions of investment costs by 30%, ...

The smart panel company Span will roll out a high-performance edge data center later this year that can be installed in homes and be powered by excess grid capacity, Latitude Media has ...
