

The loose tube gel-free design is fully waterblocked using craft-friendly, water ...

Providing up to 432 fibers in a rugged, compact design, the cable maximizes the use of critical duct space and can easily fit in 1.25-in inner duct. A specially formulated flame-retardant ...

Briticom® Micromodule FO Cable 288 Fibres has a unique extruding technology providing the fibres in the tube with good flexibility and bending endurance. The unique fibre excess length control method ...

Product Number: FISR288P5 Indoor OFNP OS2 Flexible Ribbon 288 Fibers 24F Subs Indoor Plenum OS2 Flexible Ribbon 288 Fibers 24F Subunit Yellow Jacket Availability: Global Status: Active

Universal (Indoor/Outdoor) dry core optical fiber Multi Loose Tube cable with aramid yarns as strength member and Low Smoke Zero Halogen outer jacket. Existing out of 12 tubes with a diameter of ...

A 288 strand fiber optic cable contains precisely 288 individual optical fibers bundled within a single protective sheath. Each fiber is capable of transmitting data using pulses of light, ...

The loose tube cable construction, by isolating the fibers from installations and environmental rigors, provides stable and highly reliable transmission parameters.

288 singlemode fibres for high density data center distribution applications. The fibres shall be ribbonized for easy mass fusion splicing and termination with 12-fibre MPO style connectors.

Discover 288 core optical fiber cables with high-density core count for FTTH and telecom networks. Ideal for long-distance, high-speed data transmission.

Features & Benefits 288 Fibres For outdoor use aerial and underground Water, flame and rodent resistant Available in many colours

Applications Building interconnection, Backbone networks, Telecommunication and drop cable applications. Cross Section Drawing
