

# North Macedonian manufacturer of QSFP-DD optical modules 10G

The QSFP-DD form factor, with its advantages of high speed, small size, and pluggability, has become highly favored for 400G applications. The 400G QSFP-DD optical module is one of the most popular ...

Stockholm, August 14, 2023 - Arelion has today announced that it has taken another landmark step in converging its IP and optical layers as the first global network to deploy Cisco 400G QSFP-DD Bright ...

Quad Small Form-factor Pluggable Double Density (QSFP-DD) solution that fits into high-density switch and router client ports for optical interconnect links

The product supports 100Gbps transmission speeds in an industry-standard, pluggable QSFP-DD form factor with 7nm DSP and can be widely used in metro carrier, access and Cloud/DCI applications.

The Cisco's family of QSFP-DD modules provide the industry's highest bandwidth density while leveraging the backward compatibility to lower-speed QSFP pluggable modules and cables.

Discover how QSFPTEK helped PacketStream engineer a reliable 200G DWDM network over 36km using 25G optics, overcoming 100G module scarcity. In this case, QSFPTEK engineers created a 10 ...

Acacia, now part of Cisco, has announced a pair of new 400G QSFP-DD coherent pluggable optical transceivers. The new optical modules, both based on Acacia's Greylock 7-nm ...

High-density 800G OSFP and QSFP-DD transceivers support InfiniBand and RoCE, enabling 100m to 2km transmission via MMF and SMF.

The Lumentum 400ZR module in a QSFP-DD form factor is designed for use by hyperscale data center operators and peering networks to provide high bandwidth interconnections in an industry standard, ...

Acacia, now part of Cisco, has announced a pair of new 400G QSFP-DD coherent pluggable optical transceivers. The new optical modules, both ...

With these new modules, Acacia has developed a portfolio of solutions that further address the varying needs of network operators, while driving economies of scale on a common ...
