

One fiber optic cable uses two switches

Short answer: Usually yes, you use them in pairs, but the "pair" can be a media converter on one end and a fiber switch (or SFP in a switch) on the other, as long as both sides speak the ...

Confused why your fiber links between switches won't come up? Learn the dead-simple truth about fiber polarity, Tx/Rx, and why just flipping the cable usually fixes everything.

I need to connect a single 3750G - 48 ports switch to a single 2960 - 48 ports switch and it needs to be through a fiber. So, PCs connected to one switch would reach the PCs from the other ...

Each patch cable was "ab" to "ba", and two of them together (one on each end) was causing this issue. I was able to separate the LC/LC connectors and swap one end to make the ...

Short answer: Usually yes, you use them in pairs, but the "pair" can be a media converter on one end and a fiber switch (or SFP in a switch) on the ...

Choose an SFP module based on the fiber optic cabling that will be connected to the network switches. SFP transceiver modules almost always require two fiber optic cable strands.

Which of the following cable types are used for very short-range high-speed applications, such as in SATA 3.0 cables and uplinks between two switches in the same rack-mounted enclosure?

To connect multiple Ethernet switches, the best way is to use a multi-strand fiber cable. The 4-strand pre-terminated fiber optic cable consists of four individual strands or fibers of glass or ...

Confused why your fiber links between switches won't come up? Learn the dead-simple truth about fiber polarity, Tx/Rx, and why just flipping the ...

A fiber optic ring network is a physical or logical network topology where devices (usually switches) are connected in a closed-loop using fiber optic cables. Each node is connected to two ...

I would like to replace our existing Allied Telesis AT-x900XS core switch with a new Cisco Catalyst 4900M (not yet purchased). The AT core switch has 36 SFP ports that are all connected to multiple ...
