

Optical cable double-eye single-groove clamp

FIMO cable clamps are suitable for a quick, safe and secure installation on any kind of support.

The SM1F1-250 fiber clamp consists of a two-part assembly that allows the centration of the fiber to be changed independently from a lens tube. The V-groove and rubber pad design provide excellent ...

Fiber optic cable must be supported and Kellems Grips provide the support easily and economically. These grips are made of high grade, non-magnetic tin-coated bronze strand.

For ease of mounting and experimental flexibility, the HFV001 Standard V-Groove Fiber Holder is an ideal solution for securing bare (coating intact), single mode fibers. The fiber is held in the precision V ...

CommScope designs and manufactures a variety of Fiber Cable Clamps and Grounding Kits

The unique design of the lightweight AFL Mechanical Suspension supports spans of optical ground wire (OPGW) cable through a wide range of line angle changes.

The FIBERLIGN Cushion Clamp uses a combination of structural reinforcing rods (SRR) and elastomer inserts at the ends of the clamp halves to protect the OPGW from damage at support points.

They are suitable for pulling both single cable and multiple cable bundles. Thanks to the non-metallic material, these grips are easy to work with even without gloves.

The cable clamp is used in outdoor, pole, and between building spaces to connect, fix the optical cable wires, the groove body, the wire frame and the rod, and constitutes a cable as a whole. The interior ...

Our product, consisting of a stainless steel wire and a reinforced nylon body, is specially designed for drop cables with diameters up to 3-8mm. It fits various ADSS cable designs, making it your go-to ...
