

Explore our range of fiber optic media converters designed to extend network distances with high-speed, reliable connections. Perfect for enhancing data transmission and compatibility between fiber optic ...

A Pair of Gigabit Single Mode LC Fiber Media Converter, with 2 Pcs SFP LX Modules, 1.25G/s Fiber to Ethernet Converter, 1000Base-LX to 10/100/1000base-TX, SFP to RJ45, SMF, 1310nm, up to 20km

Learn how to connect fiber media converters step by step, check key setup details, and choose the right model to ensure stable fiber-to-copper integration.

Fiber media converters link fiber with copper or serial cabling to optimize performance, cost, and data transmission over longer distances.

A fiber media converter is a simple networking device that makes it possible to connect two dissimilar media types such as twisted pair with fiber optic cabling.

Our converters are ideal for distributing signals such as IRIG (AM / DCLS), PPS or RS-232/RS-422 over long distances. Our multimode fibre optic converters have been developed for the ...

Discover Fibersystem's fiber optical converters and extenders for secure, high-performance data transmission over long distances. [Read more here!](#)

Fiber Optic Converters (also known as Media Converters) are devices that convert the electrical signal used in copper wiring such as Ethernet or Serial Data into light waves for transmission over fiber ...

Omnitron fiber media converters support a variety of data rates, network protocols, and cable types to enable integration of copper and fiber networks. Omnitron copper to fiber media converters are made ...

FiDO is AJA's family of SDI/Optical Fiber converters. FiDO allows the transport of 12G/3G/HD/SD-SDI over distances up to 10km when using standard Single-Mode fiber optic cable. FiDO models support ...
