

GYTA stands out as an outdoor communication optical fiber cable. Full cross-sectional water-blocking structure with special oil paste filling in the loose tube to ensure good water and moisture barrier ...

High-Speed Outdoor Transmission with Reliable Optical Fibers. The GYTA outdoor fiber cable is built using single-mode or multi-mode optical fibers, ensuring low signal attenuation and high-speed data ...

GYTA is an outdoor use optical fiber cable suitable for duct and aerial applications. We supply GYTA fiber optic cable from 2 fiber cores to 288 fiber cores. Both single mode type and multimode types are ...

Durable GYTA outdoor fiber optic cable with aluminum tape layer, UV-resistant, moisture-proof, ideal for aerial/pipeline installations. Custom lengths & OEM options available.

Durable GYTA armored fiber optic cable for outdoor use. Features low dispersion, moisture resistance, and wide temperature range (-40°C to +60°C).

Main products are optical fiber cables, data cables, communications cables etc. Its yearly productive capabilities are 4 million core kilometers, 0.5 million boxes, and 6 million pair kilometers respectively.

Tubes (and fillers) are stranded around the strength member into a compact and circular cable core. An Aluminum Polyethylene Laminate (APL) is applied around the cable core, which is filled with the ...

This armored optical cable is engineered with 4 single-mode fibers housed within a water-blocked loose tube, wrapped in aluminum tape for enhanced mechanical strength and moisture resistance.

Outdoor single-mode GYTA optical cable is a versatile and robust type of optical fiber cable designed to provide reliable and high-performance communication in outdoor and harsh environments.

Quality Outdoor Fiber Optic Cable manufacturers & exporter - buy GYTA 8 Core Single Mode And Multimode Fiber Optic Cable For Outdoor from China manufacturer.
