

With improved overall performance, greater bandwidth with available 10 Gigabit Ethernet interfaces, a richer feature set, and enhanced hardware, the Cisco IE 5000 Series Switches ...

Data centers and cloud computing: As core-layer devices, 10-gigabit switches support advanced functions such as virtualization and SDN, meeting the requirements of industrial internet platforms for ...

Featuring a 10Gbps uplink, the IGS-1000-8T4X is suitable for connecting to an industrial backbone or high-capacity servers. Operating flawlessly across an extensive temperature range, it guarantees a ...

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to ...

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.

Our industrial 10G switches are designed to deliver exceptional speed and performance. With high-throughput capabilities, they ensure seamless data transmission and network efficiency, even in the ...

Ideal for industrial automation, smart campuses, and enterprise networks, our switches feature ruggedized enclosures, Layer 2 or Layer 3 functionality, and flexible power inputs (AC/DC) for ...

Our rugged 10G switches provide reliable performance for critical industrial networks. Equipped with advanced features like VLAN, QoS, link aggregation, and redundancy, these ruggedized 10G ...

The industrial Layer 3 IEC61850-3 Ethernet switch adopts an enhanced design to meet the substation IEC61850-3 and IEEE 1613 certification requirements.
